## Assignment No.2 - 2

## WORKSHEET: STATISTICS WORKSHEET-5

 $\ensuremath{\mathsf{Q1}}$  to  $\ensuremath{\mathsf{Q10}}$  are MCQs with only one correct answer. Choose the correct option.

| 1. Using a goodness of fit,we can frequencies. | an assess whether a set of obtained frequencies differ from a set o |
|--|---|
| a) Mean  | b) Actual   |
| c) Predicted                                   | d) <mark>Expected</mark>  |
| 2. Chisquare is used to analyse                |   |
| a) Score                                       | b) Rank   |
| c) Frequencies                                 | d) All of these   |
| 3. What is the mean of a Chi So                | quare distribution with 6 degrees of freedom?                       |
| a) 4   | b) 12   |
| c) <mark>6</mark>                              | d) 8  |
| 4. Which of these distributions                | is used for a goodness of fit testing?                              |
| a) Normal distribution                         | b) Chisqared distribution   |
| c) Gamma distribution                          | d) Poission distribution  |
| 5. Which of the following distri               | butions is Continuous   |
| a) Binomial Distribution                       | b) Hypergeometric Distribution                                      |
| c) F Distribution                              | d) Poisson Distribution   |
| 6. A statement made about a p                  | opulation for testing purpose is called?                            |
| a) Statistic                                   | b) <mark>Hypothesis</mark>  |
| c) Level of Significance                       | d) TestStatistic  |
| 7. If the assumed hypothesis is                | tested for rejection considering it to be true is called?           |
| a) Null Hypothesis                             | b) Statistical Hypothesis   |

| c) Simple Hypothesis  | d) Composite Hypothesis                                  |  |
|---|--|--|
| 8. If the Critical region is evenly distributed then the test is referred as? |  |  |
| a <mark>) Two tailed</mark>   | b) One tailed  |  |
| c) Three tailed   | d) Zero tailed   |  |
|   |  |  |
| 9. Alternative Hypothesis is also called as?                                  |  |  |
| a) Composite hypothesis   | b) Research Hypothesis                                   |  |
| c) Simple Hypothesis  | d) Null Hypothesis                                       |  |
|   |  |  |
| 10. In a Binomial Distribution, if 'n' is the number the mean value is        | er of trials and 'p' is the probability of success, then |  |
| given by  |  |  |
| a <mark>) np</mark>   | b) n   |  |
|   |  |  |
